12 Accident reporting and investigation

- 12.1 This policy sets out the procedures that are to be followed when any employee, pupil, visitor or contractor has an accident, near miss or dangerous occurrence on the school's premises.

- 12.2 Employees who develop a work-related illness must also report via these procedures.

- 12.3 Definitions:

- An **accident** is an unplanned event that causes injury to persons, damage to property or a combination of both.
- An **incident/ near miss** is an unplanned event that does not cause injury or damage but could do so.
- A **work-related illness** is illness that is contracted by an employee through the course of work as a result of activities carried out by the school.

- 12.4 Accident Recording:

12.4.1 All accidents resulting in personal injury must be recorded on the Wellworker system or School Accident Report Form (where Wellworker is not implemented)

12.4.2 Completed Accident Report Forms will be stored to comply with the requirements of the General Data Protection Act.

12.4.3 Completed Accident Report Forms will be reviewed regularly by Health and Safety Manager to ascertain the nature of incidents that have occurred in the school. This review will be in addition to any investigation of the circumstances surrounding each incident.

12.4.4 All near misses must also be reported to the Health and Safety Manager as soon as possible so that action can be taken to investigate the causes and to prevent recurrence.

12.5 Serious incidents

- 12.5.1 Certain accidents causing injury, both fatal and non-fatal, certain occupational diseases and certain dangerous occurrences are reportable to the Enforcing Authority via the Health and Safety Executive website under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR).
- 12.5.2 All serious incidents must be reported to the EMET Services Director and reported on the Wellworker system. Where applicable a report must be made to the Health and Safety Executive under RIDDOR.
- 12.5.3 The HSE website contains guidance for schools on when an accident is RIDDOR Reportable.
- 12.5.4 This includes major injury includes any fracture (other than to fingers, thumbs or toes), amputation, loss of sight, crush injury resulting in internal damage, serious burns, scalping, loss of consciousness from a head injury or asphyxia, an injury from working in an enclosed space, hospitalisation of a non-employee as a result of a work activity.
- 12.5.5 Incapacitation for work of a person for more than 7 consecutive days as a result of an injury caused by an accident at work must be notified within 15 working days.

To calculate whether the absence classifies as 'over 7-day':

- Exclude the day of the incident if they went home or did not return to work on the day
- Include weekends, bank holidays and weekdays (whether the person would normally work on them or not). *For example: if a person has an accident on Friday and comes back to work the following Friday, then count Saturday, Sunday, Monday and Tuesday etc. but this is still only 6 days; however, if their next day of work is the Monday it would count as 9 days and would be reportable.*
- Non-consensual violence - major or over 7 day injuries to people at work arising from non-consensual violence are notifiable

12.6 RIDDOR reporting of accidents involving pupils or visitors

- 12.6.1 If a pupil or visitor has an accident this must be reported if:
- The person involved is killed or taken to hospital; and

- The accident arises out of or in connection with a work activity. Examples of 'in connection with a work activity' are;

Work organisation – supervision of a field trip
 Plant or substances – lifts, machinery, experiments
 Condition of premises, play grounds, play or PE equipment
 Sports activities as part of the curriculum where there is death or hospitalisation
 Playground accidents due the condition of the premises or inadequate supervision.

12.8 Contact details for the Health and Safety Executive are:
 Tel: 0845 300 9923 (Monday to Friday 8:30am to 5:00pm)

Website: <http://www.hse.gov.uk/riddor/report.htm>

12.9 The completed report form sent back by the HSE should be kept with other accident records and documents on the accident investigation. Forms are kept to advise the insurers of a potential claim and to present to the Enforcing Authority in the event of an investigation.

12.10 Records are to be kept for 7 years from the date of the incident.

12.11 Accident Investigation

12.11.1 All injury related accidents that are either notified to the Enforcing Authority or where a serious injury has occurred will be investigated.

12.11.2 Time allocated to each investigation will depend on the seriousness of the accident. A guide to the time required to investigate is as follows:

- Simple investigation (minor accident) 1 hour
- Standard investigation (reportable accident) 6 hours

12.11.3 During or on completion of the investigations, a risk assessment should be carried out or existing risk assessment amended to avoid reoccurrence of the accident

12.11.4 The investigation aim should be:

- to ensure that all necessary information in respect of the accident or incident is collated
- understand the sequence of events that led to the accident or incident

- to identify the unsafe acts and conditions that contributed to the cause of the accident or incident
- to identify the underlying causes that may have contributed to the accident or incident
- to ensure that effective remedial actions are taken to prevent any recurrence
- to enable a full and comprehensive report of the accident or incident to be prepared and circulated to all interested parties
- to enable all statutory requirements to be adhered to

12.11.5 The investigation will include obtaining signed witness statements, photographs and drawings as appropriate

13 Staff employed as part of the central team

- 13.1 Our central staff are either based at the HQ on the West Bridgford School campus or based in office accommodation in our schools. In all instances, central staff are expected to follow the principles outlined in this policy and the H & S processes and procedures as determined by their host school.
- 13.2 In some instances, central staff also work from home for a part of their working time. When working from home, central staff should be mindful of the issues outlined in our Flexible Working policy in relation to working from home and following H & S guidance.
- 13.3 The responsibility for the implementation of the trust's H & S policy at our school sites rests with the local governing body. The responsibility to ensure that central staff follow these policies rests with the CEO rather than individual school head teachers, albeit operationally this will be delegated to the Services Director.
- 13.4 HQ building management and compliance for fire safety, security and maintenance will be included in the school service contracts. Each HQ will require an Office Risk Assessment for the working environment which will be reviewed annually or to any change by the Services Director.
